PATENT & TRADEMARK OFFICE

Sir:

In response to the Office Action dated November 29, 2000, please amend the above-identified application as follows:

IN THE CLAIMS:

Please cancel claim 2 without prejudice or disclaimer.

Please enter the following amended claims:

1. (Amended) A low-current outlet comprising:

an outlet base provided with contact pins to which a plug can be connected; and

a rear cap that can be mounted on the rear of the outlet base, which cap, on being fixed to the base, establishes the electrical contact between conductor wires of a connection cable and the contact pins of the base, the cap being provided with wire-pair guides making it possible to position the wires so that they are connected electrically to the contact pins on fixing the cap to the base;
